# About Alert Moving & The Gold Club

## Recreating Your Style in Your New Home

We live in a society where our lifestyle takes us to other cities or provinces, separating us from our families. Each family's circumstances are different with unique needs but a common statement from our clients is, "I just don't know how I am going to do this all by myself". This is where Gold Club Relocation can help.

Some of our clients need help organizing their belongings so they are able to move forward on their own. Other clients hire us to assist them in all stages of their move.

Drawing on experience, professional, government approved movers and packers and our connection to a reliable design and refitting firm, we are able to assist seniors and their adult children with the downsizing process.

We provide our clients with the freedom to spend quality time attending to personal needs, interests and responsibilities, especially on move-in day.

Downsizing and relocating in mid-life can be a daunting prospect for most of us. Gold Club Relocation will assist with de-cluttering as well as helping decide which items and furnishings will fit into your new home. Relocating is a stressful experience. Our services will help you and your family through this time of adjustment. We will help you sort and organize the items in your home so that all that follows you will fit in perfectly. We can refit your new home to adjust to your new challenges.

With our guidance the movers will know exactly where to put your belongings.

In hiring Alert Moving's Gold Club, Relocation, you will be able to prepare for your new home in a more relaxed atmosphere knowing that your treasured belongings have been looked after with care and respect.

**Gold Club Relocation will be there for your family.**
